A simple, minimalist and comfortable lounge chair designed by Peter Karpf as a new variant of the Agitari dining chair. It's a modern lounge chair that harkens back to the classic German Bauhaus lounge chair designs from the 1920s.

Agitari is distinguished by its slim, elegant shell and tubular flex frame, which almost gives the impression of sitting in a rocking chair.

The Agitari Lounge is available in black lacquered oak, walnut or makassar bentwood seat.

Agitari Lounge
