Pause Bar

Light and modern bar table and bar stool in a pure design, matching today's demand for a "bench-bar": bar tables in a row – such configurations are becoming very popular in companies, restaurants, bars, cafés and breakout areas..

The bar stool has a slightly curved seat, rendering a good seating comfort. At the same time the design of the stool makes it possible to get seated in the stool from all 4 sides. The stool has foot rests, made in mirror chrome-plated or black powder coated steel like the rest of the stool.

The veneered shell is made in molded veneer with laminate, available in various standard colors and wood patterns. The Pause bar stool can also be delivered with an upholstered seat.

The bar tables are available with laminate with exposed ply side detail, compact laminate tops with black core materials or frosted white tempered glass,

The base is available in either mirror chrome or black powdercoat finishes.
